Some Published Projects

- **Web App Design — Sprout & Grow**
  https://wcet.waketech.edu/bktrang/WEB140/Sprout_Grow/index.html
  Designed and built an e-commerce website for Sprout & Grow, a company specializing in indoor and outdoor plants. Optimized and implemented responsive layouts and interactive features using HTML, CSS, Bootstrap, and JavaScript.

- **Web App Design — Fashion for Education**
  https://wcet.waketech.edu/bktrang/WEB260/wordpress/
  Designed a new website using WordPress to sell school supplies such as clothing, beanie bags, and hoodies. Utilized WordPress, WooCommerce, Responsive Design, and database management.

- **Web App Design — Weather App**
  https://bktrang.github.io/weather-app/
  Developed a reactive, dynamic, responsive web application that retrieves real-time weather data based on user-selected city, using Vue platform and weather API to request weather information and handle data using JavaScript. HTML, CSS, API, and GitHub deployment.
